### WORK EXPERIENCE

#### Software Developer

Botsurance

September 2020 - April 2021 / Lagos, Nigeria

- Worked closely with the product team to re-configure the processing of insurance policies, saving agents over 250 manual hours of work per month.
- Implemented RESTful APIs in CodeIgniter that enabled our internal data to be passed over to both autoreg.ng and askniid.com platforms using a chrome extension thereby automating tasks that reduced human error by 84%.
- Worked alongside KUDI engineers to build RESTful APIs that served and get data to and from KUDI's mobile App thereby increasing our sales agent by 10%
- Created technical documentation for reference and reporting.

#### Software Developer

Apprangers Limited

April 2019 - August 2020 / Lagos, Nigeria

- Built extensive test coverage for all new features which reduced the number of customer complaints by 8%
- Built RESTful APIs that served data to our JavaScript front-end based on dynamically chosen user inputs which improved page interactions by 24%
- Worked alongside product managers to re-architect a legacy products which improved the page speeds by 14% after implementation.

#### Front-end Developer

Zealarax Technologies

August 2018 - February 2019 / Ilaro, Ogun State

- Part of the team to move several apps to the cloud
- Lead the front-end team in building over 12 products for different clients.
- Refactored existing code base which increased overall app performance by 20%
